If you are fishing inside of the No Wake area, you must still start the tournament by idling out pass the Start Boat in single file - in numerical order. You must pass within **one boat length of the start boat** when your number is called. If a boat number is called to start and is delayed getting to the front of the pack, the next boat in sequence will be allowed to "kick" and the late boat will be inserted in the start line when he reaches the start boat.
- c) Personal Floatation Devices (PFD) must be worn any time main engine is operating with kill switch lanyard secured to the driver. This includes when a competitor is debarking or embarking from the boat if the engine is running. **Each competitor is required to provide their own PFD.**
- d) Contact tournament director promptly with any cancellations or changes.
- e) Once the scales are open, the Tournament Director shall distribute the 6-8 official weigh-in bags to teams. These bags are used to regulate the length of the line at the scales, in order to help the health of the fish. After the team weighs in, they are to use a team's personal bag to transport the fish to the lake. The official bags are given to the next team in line. Teams must use a numbered official club bag to bring their fish to the scales. After weigh-in all the fish will be placed back into the angler's personal bag containing water for return to the lake.
