

MIDWEEK BASS ANGLERS OF ARIZONA INC

Bass Bites

FISHING WEDNESDAYS - NOT WEEKENDS!

FEBRUARY 2021 EDITION
16 YEARS OF SERVICE TO FISHERMEN

CLUB ESTABLISHED JANUARY 27, 2005
EDITOR: TERRY TASSIN

President's Perspective

By Gary Grimes

Tournament #2 is in the books, after a field of 33 boats fished the second Midweek tournament of 2021 at Alamo Lake. The bite was tough for most, and most of the bigger fish were not quite yet ready to move into the shallows. As always, one team rises to the top, and this month it was Greg Prather and Floyd Vaughan - Team Phoenix, who bested the field with a sack of 15.26 lbs. anchored by a 5.65 largemouth. Great job guys. How does it go, even a blind squirrel...? JK (Just Kidding). No barbeque and no poker once again due to Covid, but we persevere. The virus should be more under control each and every tournament we fish from here on out. I was told by the Alamo Ranger that group use will not be available to us in October 2021 due to present restrictions (which could change), so be smart and book your site reservation now.

I would like to welcome all our newcomers to the club, glad for those who could make it to Alamo. You will not find a better group to fish and camp with, maybe I am partial, but I don't think so. Alamo is a club favorite. Good fishing, good campgrounds and it's isolated, which means everyone is together in the camp areas where we can have good times and tell tall tales. I never realized Alamo could get so windy for such a small lake, but dang, it was sure rolling when we were trying to get off the water. Thanks for looking out for each other at the ramp. Speaking of the ramp...I helped direct traffic in the dark when we were putting in the water on Wednesday and was surprised by how many trailers either have poor or no backup lights. It makes a world of difference in the

dark early morning. Our next club tournament is at Martinez Lake. More details coming, but for camping you can dry camp at Fisher's Landing, lots of guys do it, but it's very primitive. Contact Gary Martlage for details so you can be with the group. The other option is to stay in Yuma at one of the many hotels, about a 30-minute drive. Book now, as for some reason unbeknownst to me Yuma is popular in the spring. That's all for now, see you on the water.

Tournament Report Lake Alamo February 17, 2020

**Team Greg Prather & Floyd
Vaughan Weigh 5.65 Ibs Win
1st Place Team, 1st Place Big Fish
And 5 lb Pot**

Taking home **1st Place**, Team **Greg Prather & Floyd Vaughan** brought to the scales the winning creel of five bass weighing 15.26 lbs. Thanks to Floyd's 5.65 lb bass the team also won **1st Place Big Bass** honors and the **5 Pound Pot**.

Greg Prather: First I'd like to thank the board and the weigh-in crew, awesome job guys. I got a good draw

Happy St. Patrick's Day

"We Practice Catch and Release"

1st PI Floyd Vaughan & Greg Prather

with Floyd Vaughan. We pre-fished Sunday and found some fish in the main lake on Ned rigs and Shaky Heads. We tried flipping the river and some other stuff that didn't pan out. So Wednesday we stuck with our plan and fished the main lake. We had a limit by 8:30 AM with Ned Rigs and Shaky Heads. Gary Martlage had mentioned there was a spinner bait bite so when the finesse fishing slowed down we picked up the spinner baits. We got a 3 plus pounder and then Floyd caught the five pounder. We caught a lot of fish and culled several times increasing by a little bit more weight each time. Then the wind started blowing and the bite died. We had a great time in the group site camping and barbecuing with everybody. Floyd was a good partner and helped a lot with the front of the boat. I had a great time and look forward to next month's

Next Meeting - Next Tournament

Our next club meeting for 2021 scheduled for **Wednesday, 3 March** starting at 8:00 AM, at **Deer Valley Airport Restaurant** (just one mile north of I-101 at the intersection of 7th Ave & Deer Valley Road) [has been cancelled](#) due to the Corona Virus situation. Pairings will be announced by email when completed.

The next club points tournament is scheduled for **Lake Martinez** on **17 March 2021**. Club launch headquarters and weigh-in location will be announced. Tournament hours are **Safe Light to 3 PM**.

event at Martinez Lake.

Doyle Wofford & Donny Stevens Crank For 2nd Overall Finish

In **2nd Place** Team **Doyle Wofford & Donny Stevens** weighed five bass for a total weight of 13.04 lbs.

Donny Stevens: First off I would like to say thanks to my boater Doyle Wofford for taking us to the bigger fish in the morning. Secondly I'd like to say thank you to everybody that runs Midweek Bass; you guys really do your part and you step it up and I would just like to say thank you again.

OK so, we were boat 19 and after watching 18 boats ahead of us go towards the dam Doyle decided to go the opposite direction. He pulled up to a point and on the second cast of the morning I hooked what turned out to be our biggest fish of the day on a red color crank bait and before 8 AM we had a limit in the boat, all on crank baits. The rest of the day was very slow until late in the day when we caught one more keeper on dropshot 5150 worms. Man I can still smell it lol. That fish culled another smaller fish that ultimately gave us 2nd Place overall. I would also like to congratulate 1st Place Team Greg and Floyd on a beautiful big fish and a really nice sack - good job fellows.

Doyle Wofford: Tournament day started off on a sour note when my truck failed to start. As I type this input, it is still sitting at one of the Alamo campsites.

First and foremost, I'd like to thank Tom Atherton for towing my boat to the launch ramp and back to the

Emergency Bunk Repair

By Gary Grimes

I have gotten into the habit of doing a visual inspection of my trailer after putting my boat in the lake. Having had my share of trailer problems there are a few obvious things I look for, which can easily be caught with a casual walk around the trailer. I am looking for obvious damage readily visible to the eye including: welds, brake lines, lights, bunks, and anything else that looks amiss. While at Alamo this weekend fishing in new member Kurt Crawford's boat, I discovered one of his bunks was rotted, came unbolted on the front, causing the front of the bunk to slide over 6 inches, leaving the metal support exposed. This support would have ripped a hole in his hull when re-trailer the boat. Of course, we did not have the parts necessary for a proper fix, so I was told by a member to find some duct tape, which I couldn't find. Joe Denson suggested I used bungee cords, which he had used in the past. Not only did Joe suggest the bungees, he also had some with him, and personally secured the bunk to the trailer. Thanks a million Joe. This fix allowed two days of fishing. I was amazed and thought I would share.

2nd Place Donny Stevens & Doyle Wofford

campsite after weigh-in. Next, I need to thank Casey Brown for towing the boat back to the valley. Not sure what I would have done without all the help. Now for the good news; I was fortunate enough to draw Donny Stevens for my co-angler. I've never fished with Donny but quickly learned that he's a great stick. I prefished Tuesday and caught only one fish up by the dam on a jig.

My plan for Wednesday was to start near the dam but that quickly changed when I saw how many boats were ahead of us headed that way. I decided that we would start up river on a main lake point heading into a large cove that I've fished many times in the past. It turned out to be a great decision when Donny boated a 3.7 pounder on his second cast of the day using a crawdad color crankbait. I started out fishing a SPRO Little John crankbait and landed a keeper just a few minutes later. From there we took turns netting fish until we had a pretty nice limit by 8 AM. We caught and culled a couple more fish until about 10 AM and then the bite seemed to end for both of us. We were lucky enough to catch a few more throughout the day and I actually culled our smallest fish using a drop shot late when the wind was at its worst. Looking forward to seeing you all soon. By then I hope to be rolling up in a new truck.

Team Andrew Goettl & Ronnie Jimenez Overcome Mishaps

Membership

As of February 19, 2021 the Midweek Bass Anglers of Arizona consists of **116** dues paid active members.

For 3rd Place Finish

Team **Andrew Goettl & Ronnie Jimenez** weighed five bass for 12.97 pounds and took home **Third Place** honors.

Andy Goettl: Ronnie Jimenez and I met up on Tuesday morning to do a little pre-fishing for the tournament and I was extremely happy to learn that he is a former Marine. Needless to say, we seemed to hit it off pretty well.

Tournament morning started with all the anticipation and expectations that we had formulated from the day before. We had a plan for what and where we would be fishing for the morning. We were boat 11 and it seemed like the 10 boats ahead of us were all going the same direction, so I did not spare the horses at take off. I was popping over wakes and passing boats up as fast as I could when I heard something bang off a power pole at the rear of the boat. Now anyone that knows me knows coffee and I have a special relationship. The bang was my travel mug ricocheting off the power pole, and since it was full, I am sure it was at the bottom of the lake before I dropped the trolling motor. Unfortunately, it wouldn't be the last thing to fly out of the boat that day.

Ronnie started the day with a shad colored spinnerbait, and I was throwing a green pumpkin vibrating jig. At about 8:30 we had two rats in the boat and we were starting to get a bit rattled and worried we had missed something. Also at about 8:30, the world realized I was not at work and my phone started blowing up with text messages. I was getting frustrated and distracted answering the damn phone, and that's when it happened. I nonchalantly tossed the phone down to the front deck from about knee height; the phone took a funny bounce right out of the boat. I screamed and dropped to the deck reaching into the water in a desperate attempt to grab it, slipped and fell right after it. I managed to hold on to the

Wickenburg Marine to the rescue.

By Gary Grimes

Ace Bailey at Wickenburg Marine is fast becoming the go-to mechanic for Midweek Bass Anglers and the Alamo tournament proved once again why we love him. Neal Burns discovered Monday night at the lake that he had a bad trailer wheel bearing, and was hoping to avoid damaging the trailer spindle. He contacted Ace at Wickenburg Marine Monday afternoon, and Ace offered to have his guy drive to the lake the next morning at 7AM and fix the trailer. Wow! As it turned out, Neal couldn't see any numbers on the bearing because it was in pieces, so he pulled the hub and met Ace at his shop at 8AM the next morning. Ace had Neal on his way by 9AM, you can't ask for better service than that. Wickenburg Marine specializes in bass boats and caters to bass fishermen. Ace is friendly, fair, fast and knowledgeable.

3rd Place Andy Goettl & Ronnie Jimenez

side of the boat and keep my upper half dry. Ronnie grabbed me and pulled me back into the boat, and now I am beginning to develop a bad attitude on how the day is going so far.

After drying off and calling both my wife and my boss to let them know any further attempts to reach me will be in vain, I wrung out my socks, turned my rain pants inside out to dry and got back to fishing.

Now I had caught 2 fish by this time but they were small 1 pounders and were not going to help pay for a new phone. We made another long run and God Bless Ronnie who had stuck to the white spinnerbait, he nailed 5 more 2 plus fish and we culled out the dinks. We resolved to stick to what we were doing no matter what for the rest of the day. I managed a few more high 2 plus pounders but Ronnie put our two 3 pounders in the box on the spinnerbait.

All in all we managed about 12-15 fish, and culled up to 12.97 total pounds; good for a third place finish.

As for the coffee cup, phone, soaked socks and drawers, well, I guess of all things Ronnie and I have seen and done, this was more of an expensive laugh than something to be mad about.

I got home at 7 PM and my wife informed me the

Tournament Statistics

Sixty-six contestants fished 8 hours each, bringing 139 bass to the scales for a total weight of 256.08 pounds with a 3.88 pound average total catch per fisherman. The average weight of each fish was 1.84 lbs. All fish were released alive back into the lake after weigh-in to fight again another day.

phone was still active and had 83% battery life left. I checked again near 8 PM and the phone was no longer receiving. I guess the waterproof Otterbox finally gave out.

Tournament submissions and how you can keep our TD's (Tournament Director) blood pressure from rising.

By Gary Grimes

Prior to each month's tournament, after all the registrations are submitted, we conduct a randomized draw and pair up boaters and co anglers. Immediately following the pairings, our tournament director will work to make sure that every boat has a co-angler, and vice versa. We do this early in the month in order to allow partners to talk and game plan for the lake. Inevitably, things happen that require we make changes in the pairings. The typical reasons are either boat problems or medical situations, both of which are typically unforeseen. Our TD then works to find partners for the remaining partner who still wishes to fish. We average over 30 boats per tournament, and our TD typically works 6-10 changes per month, which involves a lot of phone calls notifying all the parties involved and seeking replacements. Sometimes these problems occur when our TD is at the lake in the days prior to the tournament, which limits his ability to quickly resolve these issues. I mention this because these changes are the most frustrating part of being a TD. With that being said, we are seeking ways to minimize these changes, and one of the ways to help is to carefully choose your status when submitting your tournament entry.

Boater - the selection of this option means that you have an operational, tournament ready boat. The boat must be at least 15 feet in length, must steer using a steering wheel and not a tiller, must have a trolling motor, and must have functioning live wells. Operational means the boat is in working condition. Do not register as a boater if your boat is not working or is having problems that you hope do not arise on tournament day. Get it fixed, test it out, and if it works then you can put in the next tournament as a boater. If you are having problems with your boat that gives you uncertainty, do not register as a boater.

Co Angler – the selection of this option means that you wish to fish from the back of the boat as a co. You will bring your own gear and PFD, and willingly pay your boater the predetermined amount for that particular lake. We have no problem with boaters fishing as co anglers, it happens all the time for a variety of reasons.

Can Fish as needed – the selection of this option means that you have an operational, tournament ready boat but that you are willing to fish as either a co-angler or an angler. You are basically leaving the decision up to the tournament director to use you as needed, which we will do.

4th Place Mark Peiffer & Gary Martlage

Team Martlage & Peiffer Take 4th Place Using Spinnerbaits

Taking home **4th Place**, Team **Gary Martlage & Mark Peiffer** weighed five fish for a total weight of 12.03 lbs.

Mark Peiffer: Being new to the club, the experience was exactly what I was looking for. I've fun fished for years and wanted to improve my skill set, get out of my comfort zone, and learn some new (or old) things. I had the pleasure of fishing with Gary Martlage. It was awesome that Gary had a chance to prefish and find some key areas on the northern coves.

From the beginning of the tournament Gary was telling me of a good spinnerbait bite. He put a 2 lb fish in the boat pretty quickly. He followed up with a small fish that we were hoping to cull. It was cool seeing Gary work his spinnerbait, almost like a worm, through the brush. I tried the spinnerbait, chatterbait, flipping a beaver and a drop shot. It was definitely a tough bite. We ran a few pockets and I picked up a couple of fish throwing across secondary points with the spinnerbait.

Gary got our 5th fish in the last 25 minutes of the tournament. He was able to put close to a 3 lb fish in the livewell and cull that small fish we still had in the well. Thanks for the spinnerbait lesson Gary, I really enjoyed the day with you.

Vern Ridgway & David Sapyta Work Shallow Coves To Finish 5th

A five fish bag weighing 11.59 lbs was enough to earn Team **Ridgway & Sapyta** the **5th Place** money.

Vern Ridgway: Great job by the weigh-in crew; they moved people thru the lines fast! As boat number 3, we had plenty of time to watch most everybody launch, and what entertainment it was to observe.

I met my partner David Sapyta early Monday morning (when I could get him out of that warm trailer) to begin our two day practice time. We worked every nook and cranny we could find on Alamo and caught a few here and there on this and that but could find no solid pattern.

On game day we decided to go crank an area towards the dam and we were able to pick up a couple of fair size fish. We then moved to mid lake and threw jigs to no avail then decided to move up river where we caught our 5th fish about noon. The wind started to pick pretty good, so we crossed over to the north side and threw blades and were able to cull up twice with a little better fish. Most of the fish we caught were in 5 feet or less of water near or in the back of coves. We suspected they were preparing to do their mating ritual.

David was a great fishing partner and we had a great time on Alamo's frog pond. The fish were caught on shallow running cranks, David's flick worm, his popcorn crankbait, Senkos, and blades. A fun tournament indeed, can't wait to go to Yuma next month.

David Sapyta: Fishing with Vern is always a good day on the lake. I was throwing a peanut worm and flick shake also a blade bait for the fish I caught. Thanks to everyone running things it's always a great day.

5th Place David Sapyta & Vern Ridgway

Team Allen Wacker & Andrew Bell Crank Their Way To 6th Place

Team **Allen Wacker & Andrew Bell** weighed five bass for 10.53 pounds and took home **6th Place** honors.

No catching report provided.

6th Place Andrew Bell & Allen Wacker

Team Don Blume & Steve Rubenstein Work Dam Area To Finish 7th Overall

In **7th Place** Team **Blume & Rubenstein** weighed five bass for a total weight of 10.35 lbs.

Steve Rubenstein: First I want to thank the Midweek crew for putting on a great tournament each month. My partner Don Blume also deserves a vote of thanks. I was supposed to be the co-angler, but Don had some trailer difficulties. As a result, we took my boat to use in the tournament. During practice we found an area near the dam that held fish and decided to concentrate on that area during the tourney. Don started cranking and I started finesse fishing on a Ned rig. I caught 2 quick fish. Then Don started hitting on his crank bait. He caught a keeper, and then nailed his 3.25 pounder, all on a crank bait. I had a few bites and missed them, but Don kept getting fish to fire on his crank.

By 10 AM we had a limit. We kept catching a fish here and there and kept upgrading. It was a tough bite,

but Don kept getting fish to fire on that crank. Then he got one on a jerk bait and a Texas rig with a craw. By the end of the day we had a little over 10 lbs onboard.

I am relatively new to Arizona and still learning how to catch fish here. I am from Paradise, CA. and am use to catching Spotted Bass. It is totally different here. Don was good enough to take control of the boat and did a great job putting us on fish. As a result this was my first time finishing in the money. Thanks Don, I learned a lot.

Don Blume: This started out to be 'one of those weeks' and I almost did not make it to the tournament. I went to Bartlett Monday and on the way home from the lake I had a trailer issue where my suspension broke causing my tire to bottom out in the fender. I limped my boat home on three tires. I called my partner Steve Rubenstein to break the bad news that I could not fish. Steve graciously offered up his boat, so I accepted and scrambled to pack and be ready in the morning.

We pre-fished Tuesday from 8:30 to about 3 PM. We started off by the dam and I lost a 4 lber on a craw colored crankbait. I think Steve might have caught one on a Drop Shot or Ned rig in that area, but nothing really was going on. We then moved to a cove on the west side coming from the dam and got on a few with Drop Shot and Ned rigs, but they were only dinks. The wind kicked up about noon and our day was pretty much over.

Tournament day we had to start where I lost our big fish, so we fished a stretch on the left side of the dam. My craw colored crank started working and Steve's Ned rig also got hot and we had an 8 lb limit by 9:30 AM. We pretty much hit this area over and over all day and continued to slowly cull fish. The crank and Chigger Craws rigged Texas style continued to pay off. For us, it was obvious the fish were eating Crayfish around rocks.

7th Place Blume & Rubenstein

We caught about 12 fish all day.

So, the start of a frustrating week turned out to be a great trip.

Joe Denson & Joe Michels Fight Wind For 8th Overall

In **8th Place** Team **Denson & Michels** weighed five bass for a total weight of 9.93 lbs.

No catching report submitted.

8th Place Joe Michels & Joe Denson

Medina & Moore Weigh-in 2nd Place Big Fish

Team **Tony Medina & Doug Moore** weigh-in 3.77 lb bass thanks to Doug and win the **2nd Place Big Fish** prize.

Tony Medina: Congratulations to the winners despite the rough water. Oh, what a tournament! We started out with our boat, not wanting to start, so we were left with using our trolling motor for most of the day.

We started in the cove at the ramp which we worked for three hours and only caught two fish. Luckily my partner Doug Moore caught the Second Big Fish of the tournament, 3.77 lbs.

After we fished out that cove we moved up the lake. Unfortunately, we got stuck on a reef and we couldn't raise the motor to get loose and we tried everything. Fortunately a Good Samaritan showed up in an inflatable boat. He went to his camp and brought us a battery. We were able to raise the motor and finish fishing

**2nd Place Big Bass - 3.77 lbs
Doug Moore & Tony Medina**

the tournament.

Pre-fishing the day before the tournament I found a good spot where I caught two 3 pound fish, but we couldn't get to that spot without our big engine on tournament day. After the drama we saw after pre-fishing on Tuesday getting off the water in rough, windy conditions at the Cholla ramp was a real chore. The water at the other ramp was calm with no waves.

We give thanks to the Good Samaritan for his intervention and allowing us to finish the tournament. After the tournament we returned his battery and expressed our great gratitude.

I was lucky to draw Doug Moore. I'd never met him before, however I found out he's a great guy and a great fisherman. I hope to draw him again sometime.

SO LONG AND THANKS FOR THE MEMORIES

By John Reichard

I would like to thank all you club boaters who partnered with me throughout my years in the club; for being patient with me and sharing your techniques. I would also like to thank all the Co-Anglers for sharing your knowledge with me. I would like to thank all the members for having the faith in me to elect me your treasurer. Most of all I would like to thank all of you for being my friends.

Jan and I will be leaving to live with our daughter and son-in-law in southern California on March 1st.

It's been an honor my friends.

John Reichard

**Weighing-In
By Gary Martlage
Tournament Director**

As our 2nd tournament of the season is in the books, it looks like we are off to a great start. I was impressed after being the last to weigh-in and then being shuttled down to drop off my fish (by my great partner and volunteer shuttle driver, Mark Peiffer), that when I returned, all the weigh crew had disassembled and loaded up the weigh site! It is a pleasure to have so many members that volunteer, making our tournaments run so smoothly; hats off to all that helped.

Our next tournament will be at Martinez (Fishers Landing). I have received numerous contacts about lodging in the area. Motels are available in Yuma - a 20 minute drive. Also, primitive camping is available for \$5 a night at Fishers. My advice is to make berthing arrangements on your own, then get with your partner to see if either of you might have a better accommodation lined-up in which to stay. You can book a room and then cancel it, if needed. There are other options if you qualify; if you are currently active duty military or retiree from military service, as they also offer cabins for rent – if available. Contact Jack Hughes, as he has done this before and he can give you the contact information to see if any are left for rent.

Again, I would wait until the pairing draw is completed, and then try to coordinate something with your partner. It sure helps if you can drive together, and share accommodations this way.

I am looking forward to seeing you all at the lake on March 17.

"If people enjoy buffets, then maybe the fish will too."

Remember these?

For those who never saw the Burma Shave signs, here is a quick lesson in our history of the 1930s and '40s. Before the Interstates, when everyone drove the old two lane roads, *Burma Shave* signs would be posted all over the countryside in farmer's fields. They were small red signs with white letters. Five signs, about 100 feet apart, each containing 1 line of a 4 line couplet and the obligatory 5th sign advertising Burma Shave, a popular shaving cream. Here are some of the actual signs - read from the bottom up:
